

SEAN KASPAR

OPERATIONS & PROGRAM MANAGER | DEFENSE, AEROSPACE & MISSION OPERATIONS

Active Secret Clearance | MBA | M.S. Enterprise Artificial Intelligence Candidate | Open to Relocation
Fort Benning, GA | 708-203-7326 | SeanKaspar92@gmail.com | linkedin.com/in/sean-kaspar | seankaspar92.github.io/Portfolio/

PROFESSIONAL SUMMARY

12+ years leading high-accountability operations, programs, and teams across workforce readiness, training, logistics, resource management, safety, and performance execution.

Managed more than \$6M in operational resources, supported brigade-level training and mentorship reaching approximately 12,000 personnel annually, and delivered 15 large-scale programs serving approximately 4,800 personnel with zero safety incidents.

MBA-qualified Sergeant First Class with an active Secret clearance; translates strategic priorities into executable plans, measurable performance, risk visibility, and decision-ready reporting for senior leaders and cross-functional stakeholders.

CORE CAPABILITIES

Operations Management | Program Management | Project Execution | Strategic Planning | Cross-Functional Leadership | Workforce Planning | Process Improvement | Resource Allocation | Risk & Issue Management | Performance Analytics | Stakeholder Management | Change Management | Training Operations | Executive Communication

PROFESSIONAL EXPERIENCE

UNITED STATES ARMY | Sergeant First Class (E-7) | Jan 2014-Present | Multiple U.S. & International Locations

Senior Operations / Program Operations Manager

2024-Present

Battalion Operations NCO / Platoon Sergeant

- Direct concurrent operational workstreams across workforce readiness, training, communications, scheduling, vehicles, and resources; balance competing priorities, surface constraints and risk, and provide senior leaders with decision-ready status and required actions.
- Translate broad priorities into executable plans by defining ownership, sequencing work, coordinating timelines and dependencies, tracking progress, and driving actions through completion in changing operating conditions.
- Integrate personnel, technical platforms, crews, sustainment requirements, communications, and operating information during large-scale activities to preserve accountability, continuity, and decision visibility as requirements shift.
- Evaluate 50+ personnel against organizational standards and convert findings into documented development plans, accountability actions, and follow-up mechanisms that strengthen professional growth and team readiness.

Training Program Manager (Concurrent Assignment)

2024-2025

Brigade Instructor / Technical Training Program Leader

- Delivered 15 large-scale technical training programs to approximately 4,800 personnel with zero accidents or injuries; coordinated staffing, schedules, resources, safety controls, equipment, and quality standards.
- Delivered 800+ hours of technical instruction to 500+ learners and contributed to a 90%+ qualification pass rate by standardizing delivery, monitoring results, and adjusting instruction based on performance gaps.
- Supported brigade-level training and mentorship for approximately 12,000 personnel annually and coordinated a multinational program involving 30 Royal Thai Army and 12 U.S. teams.
- Directed serviceability, maintenance, safety, and accountability activities for technical systems and equipment valued above \$500,000 while preparing operators and leaders for high-risk execution.

Junior Operations Manager / Team Manager

2021-2024

Weapons Squad Leader / Section Leader

- Led a multifunction technical team responsible for workforce readiness, maintenance, logistics, training, safety, and more than \$4M in equipment; established ownership, operating standards, and review routines that sustained accountability and readiness.
- Maintained 100% accountability across broader assignments involving more than \$6M in operational resources through disciplined checks, documentation, maintenance follow-up, and leader verification.
- Planned and executed six squad live-fire exercises, two technical training programs, three platoon live fires, and multiple company, brigade, and multinational events by coordinating people, equipment, sustainment, safety, and schedule.
- Improved team performance average from 509 to 526 and then 537 by implementing a repeatable process using baseline data, coaching, feedback, and reassessment; selected as the top-performing leader among 18 peers.
- Supported rail load-out operations involving more than 2,200 vehicles and facilitated evacuation of five casualties while maintaining defensive operations and mission continuity.

Workforce Development & Onboarding Manager

2019-2021

Drill Sergeant / Senior Drill Sergeant

- Trained, coached, and mentored more than 1,600 personnel through structured 10-week onboarding and development programs; managed cohorts of up to 60 across scheduling, evaluation, safety, and accountability.
- Coordinated movement, staffing, resources, and accountability for more than 900 trainees with no loss of personnel or equipment while maintaining strict timelines and performance standards.
- Provided structured coaching, feedback, and corrective development throughout each cycle; recognized as Drill Sergeant of the Cycle for leadership, mentorship, and execution.

Earlier Infantry Leadership Experience

2014-2019

Team Leader / Squad Automatic Weapon Gunner

- Progressed through frontline infantry roles with increasing responsibility for small-team leadership, training, maintenance, safety, equipment accountability, and mission execution in demanding operational environments.
